Motor-Y

The diagram shows a horizontal sequence of memory segments. Above the segments are labels: **X**, **Y**, **Z**, **E1**, and **E2**. Below these labels are boxes representing the segments. Segment X contains 'J22'. Segment Y contains 'J23'. Segment Z is divided into two sub-segments, 'J24' and 'J25'. Segment E1 contains 'J26' and is highlighted with a green border. Segment E2 contains 'J27'.

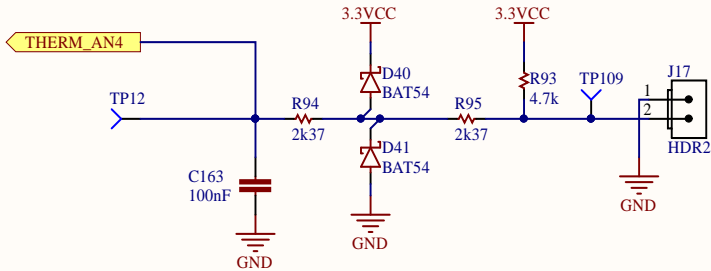

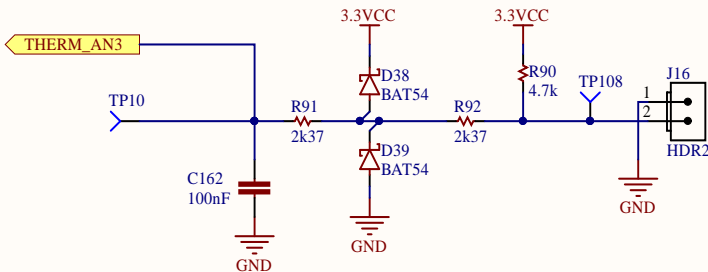

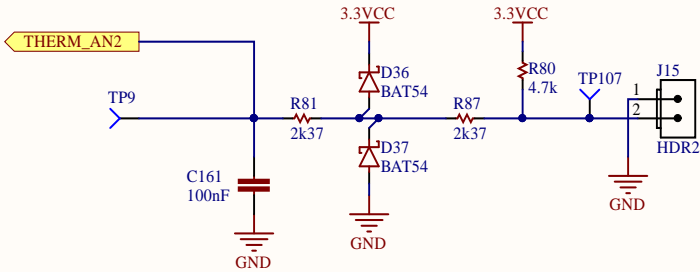

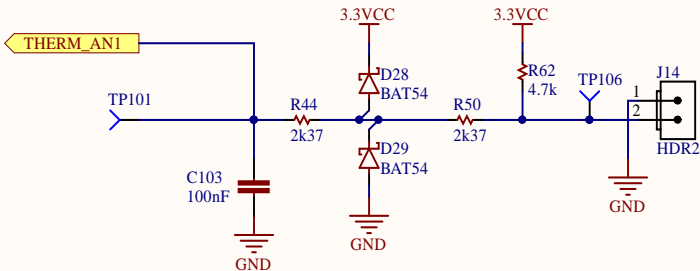

The diagram shows a 2D array layout with 7 columns. The columns are labeled X, Y, Z, Z, E1, and E2. The first four columns (X, Y, Z, Z) are grouped together, and the last two (E1, E2) are grouped together. Each column contains a box labeled J22, J23, J24, J25, J26, and J27 respectively. The E2 column is highlighted with a green border.
